

MONTGOMERY COUNTY CEMETERY INVENTORY

Revisited

Join an exciting project to visit and learn about historic burial sites throughout Montgomery County. Visit some of the 300+ known cemeteries, help to discover new ones, conduct research, take photographs, complete survey forms, transcribe gravestone inscriptions, and team up with interesting people of all ages and backgrounds.

This volunteer-based project will enhance the original survey conducted from 2004 through 2009. Coordinated by Montgomery Preservation (MPI), we will update digital documentation and find new information on conditions, history, families, and communities.

Individuals and groups are invited to participate in this significant step forward in helping to identify and preserve local historic burial sites. Starting in January 2018, MPI will provide training and packets for volunteers, plus opportunities to share your findings, observations, and questions.

You'll find more information about local cemeteries and this project posted on
