MONTGOMERY PRESERVATION formed in 1984 to preserve, protect, and promote our architectural heritage and historic landscapes for future generations. MPI rescued and restored the Silver Spring Railroad Station and opens it to the public on the first Saturday of every month. Soon it will be a favorite stop on the new Hiker-Biker trail. MPI has sponsored the County Preservation Awards for 32 years and recently organized volunteers for the award-winning Montgomery County Cemetery Inventory-Revisited project.

## POTTER VIOLINS, TAKOMA PARK

PRESERVATION, REHABILITATION &

## THE MONTGOMERY PRIZE

*Royce Hanson* – OUTSTANDING LEADERSHIP TO FURTHER THE  
AIMS OF HISTORIC PRESERVATION IN MONTGOMERY COUNTY

**Grace United Methodist Church** was built in 1905 as Grace Methodist Episcopal Church, South. Maryland Methodists split into two factions in 1844 over the issue of slave ownership and did not reunite until 1939. Grace Church was an expensive building in its time, costing \$12,000. It was designed by Baltimore architects Frank and Henry Davis, who also planned the Red Brick Courthouse (1891) and Christ Episcopal Church in Rockville (1884). All three structures are admired for their handsome brick exteriors, dark wood interior trim, and beautiful stained glass windows.
